PROGRAMMING PROJECTS

Nearby Offer and Nearby Seller Mobile App

Nearby Offer - helps users find local deals, view shop locations, chat with shop owners via WhatsApp, create wishlists, and stay updated on new products.

Nearby Seller - empowers shop owners to digitize their businesses, showcase products, manage offers, and connect with customers effortlessly.

Uber Clone- Ride Sharing CrossPlatform Mobile App

https://z.umn.edu/UberCloneProject

Demo **Download Apk**

Developed an Uber-like ride-sharing app with real-time tracking and animated features.

- React Native, Google Maps and Autocomplete API, AWS Authentication, AWS Lambda, AWS Amplify, AWS DynamoDB, AWS S3 Bucket

Micky Text Editor- Windows Text Editor

https://github.com/mickyfazler/MickyTextEditor

Demo **Download Exe**

I created this project to address the limitations of Notepad, introducing useful features such as multiple themes, font styles, and alignment options.

- Python, Tkinter

Holecom- Video chatting Website

https://z.umn.edu/FazleWebProject1

Demo **Live** (Currently not operational due to a WebSocket issue)

A platform dedicated to providing real-time video, audio, and messaging services.

- HTML, CSS, JavaScript, Django, WebSocket, WebRTC

KEY ACHIEVEMENTS

Selected world Top Universities

I have been offered admission to UMN (globally ranked 57th by USNews for 2022-23) with a full scholarship, and to Arizona.edu with a \$25,000 scholarship.

EDUCATION

Higher Secondary

Bangladesh Air Force Shaheen College

2019 - 2022 Chattogram,

GPA

5.0 / 5.0

B.Sc in Computer Science & Engineering

Port City International University

06/2024 - Present Chattogram

GPA

0.0 / 0.0

SKILLS

Web Developer

Android Developer

React JS

React Native

Django

SQL

Data Structure and Algorithm

Cybersecurity

Git

OpenCV

Automation

Machine Learning

AWS

PROGRAMMING

Python

Javascript

HTML & CSS

SQL

Java,PHP,C,C++

STRENGTHS

Productive

Developed Chrome extensions, Python, and JavaScript scripts, and macros to automate tasks. Skilled in using AI tools to improve efficiency.

Focused

I approach tasks with relentless focus, mastering six programming languages in college and securing a 5.00 GPA after 20 days of focused study.
